

Students Earn Money, Credit, & Experience

The American Public Power Association (APPA) awards student research grants/internships each year as part of its Demonstration of Energy-Efficient Developments (DEED) Program. APPA is the service organization for the nation's community-owned electric utilities. DEED is APPA's research program promoting energy innovation and efficiency.

Ten \$4000 Student Research Grants/Internships

Awarded each year to undergraduate/graduate university students to conduct research on a project/internship in conjunction with a DEED member utility or can be a part of the students' curriculum requirements if approved by a DEED member. A mid-project report and final report and abstract are required.

Application deadline - February 15, 2006.

One \$5000 Technical Design Project (Research Grant)

Awarded each year to a student or group of students studying in an energy related discipline. This grant is geared towards engineering students working on their senior project. The student(s) academic advisor must approve the project and a mid-project report and final report and abstract are required. Travel expenses (up to \$3,000) are also included in this grant for the student(s) to present their work at APPA's Engineering and Operations Technical Conference held each spring.

Application deadline - October 15, 2005.

For more information and an application visit APPA's website at <http://www.appanet.org> then click on *Research and Development (DEED)*, then choose *DEED Funding Opportunities*.
