Check Computing Lab hours at <http://technology.pitt.edu/Students.aspx>.

Wireless Internet Service can be found in most locations on campus. To view a complete list of locations with wireless internet service please visit <http://wireless.pitt.edu/locations1.html>.

*Before you can use Wireless PittNet, you will need:

- a University Computer Account
- to understand the guidelines and responsibilities for using Wireless PittNet
- a PC running Windows Vista, XP, or 2000 with wireless capability (built-in or adapter*), or a Mac running OS X 10.3 or higher with Apple Airport Extreme

*Note: Wireless adapters **must** support WPA. If your wireless adapter was manufactured prior to 2003, you may need to download the latest firmware or driver from the manufacturer's Web site.*

(* Information from <http://wireless.pitt.edu/connect1.html>)

Your **Pitt Username and Password** should have reached you in the mail already. You will need a valid Pitt Username and Password to utilize all of Pitt's computing and technology services, including email, software, etc. If you have not received or lost/forgot your campus computing information, please visit one of the Campus Computing Labs with your Pitt ID card to obtain the information.
